3. Pension: Securely Transmitting Documents

The Pension Division has begun using an application called Filr to securely share revised reporting forms and other documents that contain not-public data with relief association trustees and authorized consultants. Before we share a document using Filr, we will send a courtesy e-mail explaining that a form or document will be made available for transmission and provide you with instructions on how to retrieve the shared file.

Filr can also be used to transmit documents containing not-public data to our office. Please do not send documents containing not-public data by e-mail unless a secure system is used. If you would like to transmit a document using the Filr application, contact a member of our Pension Division team at (651) 282-6110 or at pension@osa.state.mn.us.

4. Avoiding Pitfalls: Scrap and Salvage Proceeds

Public entities may at times receive money from the sale of scrap or other salvaged materials. This money is not “found” money that can simply be retained and spent by the department that controls the materials. Instead, the money must be treated like other public funds and promptly turned over to the public entity for deposit and entry into the accounting system.
