Ranking of County Expenditures For the Year Ended December 31, 1995

Introduction

Minnesota counties generally report expenditures by their character such as current, capital outlay, and debt service. Current expenditures, which benefit the current year, are normally presented in 10 major functional categories. Capital outlay and debt service expenditures differ from current expenditures in that they benefit more than the current year.

The accompanying tables rank counties on the 10 current expenditure categories, total capital outlay and total debt service expenditures by both dollar amount and per capita dollar amounts. Also presented are tables on county outstanding debt ranked by both dollar amount and per capita dollar amount. Outstanding debt is not an expenditure type but does have a relationship to capital outlay and debt service expenditures. The outstanding debt tables show debt the counties have incurred to finance capital projects and the principal the county will pay in future years. When reviewing the Expenditure and Outstanding Debt Tables, the reader should keep in mind that there are many differences among the 87 counties in Minnesota and additional research should be done before forming any conclusions.

One of the biggest differences between counties is the way they categorize expenditures. An activity reported as part of a governmental fund in one county may be accounted for in a proprietary fund in another. In other cases, several counties may decide cooperatively to provide a service as part of a separate entity. These expenditures would not be reported in the same way as a county providing the service as part of its governmental funds.

In addition to how counties categorize their spending, the land area, population, and location may also affect the expenditures of the county. A county with a larger population can take advantage of economies of scale unlike a county with a smaller population. Also, a county in northern Minnesota may place a higher priority on an activity than a county in southern Minnesota, which may be indicated by higher per capita spending.

Although there are many differences between counties, the rankings provided in this report are intended to stimulate discussions on the effectiveness and efficiency of county governments. To make complete and proper comparisons, the rankings in the accompanying tables should be reviewed along with other reports on county financial information. The following reports are available from the Office of the State Auditor to assist in making these comparisons.

- Report on Revenues, Expenditures and Debt of Minnesota Counties, December 31, 1995
- Guide to City and County Fund Balances, December 31, 1995
- 1995 Budget Data for Minnesota Counties Together with 1994 Revised Budgets
- 1996 Budget Data for Minnesota Counties Together with 1995 Revised Budgets
- 1995 Local Government Lobbying Expenditures

Furthermore, each county has an annual audited financial statement. This annual financial report includes footnotes that describe the accounting methods of the county. A transmittal letter may also be included in which county management discusses the accomplishments and plans of the county. These reports are available from the county.

Periodic meetings of county commissioners, and annual truth in taxation meetings provide opportunities for citizens to discuss county activities with county officials. Also, county officials are available to answer specific questions on the activities of the county.

TABLES**

Table 1
Ranking of County Current General Government Expenditures
For the Year Ended December 31, 1995

General government expenditures are those expenditures related to the administration of the governmental unit. Some of the departments that are generally included in general government expenditures are county commissioners, auditor, treasurer, recorder, and assessor.

Table 3
Ranking of County Current Public Safety Expenditures
For the Year Ended December 31, 1995

Public safety expenditures are those expenditures that are related to the protection of persons and property. Three of the most common departments included under public safety expenditures are sheriff, corrections, and jail.

Table 5
Ranking of County Current Highways and Streets Expenditures
For the Year Ended December 31, 1995

Highways and streets expenditures are for the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, and snow removal. Highways and streets expenditures cover expenditures on all county highways, including county state-aid highways. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.

Table 11
Ranking of County Current Human Services Expenditures
For the Year Ended December 31, 1995

Human services expenditures are designed to provide public assistance and institutional care for individuals economically unable to provide for their own essential needs. Typical expenditures include Medical Assistance, Aid to Families with Dependent Children, General Assistance, and Food Stamps.

Table 21
Ranking of County Capital Outlay Expenditures
For the Year Ended December 31, 1995

Capital outlay expenditures are for the purchase of physical items which benefit the county for more than one year. These expenditures include the purchase, construction or permanent improvements of buildings, equipment, machinery, and land. In many cases, counties try to plan for consistent capital spending from year to year in order to avoid large swings in spending. This is not always possible because projects such as constructing a new building may be large in cost but infrequent in nature.

Table 25
Ranking of County Outstanding Long-term Debt
For the Year Ended December 31, 1995

Outstanding long-term debt is not an expenditure but is related to debt service expenditures. Outstanding long-term debt is that debt the a county has incurred to finance its capital projects. Examples of the type of debt included in the accompanying amounts are general obligation bonds, general obligation tax increment bonds, special assessment bonds, general obligation revenue bonds, revenue bonds, refunding bonds, and other long-term debt.

County	Population	Expenditures
HENNEPIN	1,063,631	\$333,683,858

Glossary

BORROWING - Includes the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Counties are restricted by law from borrowing for current expense.

CAPITAL OUTLAY - The purchase or construction of buildings, permanent improvements, equipment, machinery and land. Capital outlay varies from year to year based on the needs and resources of the counties.

CAPITAL PROJECTS FUND - A fund created to account for the financial resources that are used for the acquisition or construction of a fixed asset. An example of this fund type is a highway improvement fund.

CHARGES FOR SERVICES - Fees for activities of the governmental funds. These include rent of government buildings by individuals or organizations, road and bridge services, recreation fees, park fees, etc.

CONSERVATION OF NATURAL RESOURCES - Activities designed to conserve and develop such natural resources as water, soil, forests and minerals

CURRENT EXPENDITURES - Expenditures which benefit the current fiscal period. Expenditures included in this definition are salaries, pension contributions, operating expenses, etc.

DEBT SERVICE FUNDS - A fund to account for the collection of resources and payment of long-term debt principal and interest.

ECONOMIC DEVELOPMENT - Expenditures associated with planning and providing adequate housing and redevelopment of substandard physical facilities. Expenditures directed toward developing an area or providing assistance and opportunity to persons and business for such development.

ENTERPRISE FUNDS - A fund established to account for operations financed and operated in a manner similar to private business, e.g., hospitals and nursing homes. The expenses of providing services are primarily financed by user charges.

FINES AND FORFEITS - Receipts from the payment of penalties for law violations, non-observance of contracts and forfeited deposits.

GENERAL FUND - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

GENERAL GOVERNMENT - Expenditures related to the administration of the governmental unit.

Glossary

GOVERNMENTAL FUNDS - The funds through which most governmental activities are financed. The four governmental fund types are: general, special revenue, debt service and capital projects.

HEALTH - Expenditures include mental health centers, general clinics, preparation of vital statistics (birth and death records), disease control, etc.

HIGHWAYS - Expenditures include maintenance of highways, patching, seal coating, and snow removal. Highway construction, bridge repair and construction, and purchase and maintenance of street equipment are also included. Includes expenditures on all county highways, including county state-aid highways.

HUMAN SERVICES - Expenditures include Medical Assistance, Aid to Families with Dependent Children, General Assistance, Food Stamps, other income maintenance services, social services, etc.

INTEREST EARNINGS - Includes interest earned on checking and savings accounts, CD's, money market funds, and Treasury Bonds and bills.

INTERGOVERNMENTAL REVENUES - Revenues from other governments in the form of grants, entitlements, shared revenues or payments in lieu of taxes.

LIBRARIES - Expenditures include the purchase of reference materials and books, reference services to patrons, cataloging of materials and general administration of the library.

LICENSES AND PERMITS - Business licenses and permits are receipts from businesses and occupations that must be licensed before doing business in the county. Non-business licenses and permits are revenues levied according to benefits presumably conferred by the license or permit.

MISCELLANEOUS EXPENDITURES - Expenditures include all expenses that were not allocated to a specific function.

MISCELLANEOUS REVENUES - Includes refunds, reimbursements, donations, and lease payments.

NET TAX LEVY - The county property taxes, net of state property tax relief aids or grants, required to be paid by the property owners of the county.

OTHER FINANCING SOURCES - Long-term debt proceeds, sale of fixed assets and transfers in from other funds.

Glossary

OTHER FINANCING USES - Transfers out to other funds, refunding bond proceeds deposited with escrow agent, and remittance to other agencies.

PARKS AND RECREATION - Expenditures for park maintenance, mowing, planting and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, cable TV, baseball fields, organized recreation activities, etc.

PUBLIC SAFETY - Expenditures for the sheriff, corrections, traffic safety, building inspections, civil defense, etc.

SANITATION - Expenditures include refuse collection and disposal, recycling, and weed and pest control.

SPECIAL ASSESSMENTS - A levy made against certain properties to defray all or part of the costs of a specific improvement, such as new sewer and water mains, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

SPECIAL REVENUE FUNDS - A fund used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

TAXABLE TAX CAPACITY - The tax capacity less the tax increment district value, less the fiscal disparities contribution value plus the fiscal disparities distribution value.

TAX CAPACITY - The value assigned to the property used to calculate the property taxes.

TAXES - Revenues received including property taxes, penalties and interest on delinquent property taxes, fiscal disparities, forfeited tax sales, gravel taxes, and tax increment taxes if not shown separately.

TAX INCREMENTS - Taxes collected on tax-increment financing projects. Tax-increment financing is a tool which counties use to redevelop a portion of the county. The increase in taxes on the redeveloped area is used to cover the county costs associated with the project.

TOTAL EXPENDITURES - Includes current operating expenses, capital outlays and debt service principal and interest payments.

TOTAL REVENUES - Money received by the entity that increase the amount of available resources without creating a liability or a future payment. Loans and transfers between funds are not included in total revenues.

Glossary

TRANSFERS - ENTERPRISE FUNDS - The transfer of available resources to or from public service enterprises. These transfers are shown separately because enterprise funds are not included in the governmental funds.

TRANSFERS - GOVERNMENTAL FUNDS - The transfer of money between governmental fund types. The revenues and expenditures for these funds are always shown in the same tables.
